Air Tutors

**OUR PROGRAM**

- Research-Based Practices for all K12 grades and subjects
- Customized Curriculum Alignment
- Easy to Launch; Full Implementation Support
- Flexible Scheduling with High Dosage Options
- CONSISTENT AND MEASURABLE LEARNING OUTCOMES

**OUR TUTORS**

- Minimum qualification is a Bachelor's Degree with 3 years of teaching experience
- Community averages 10+ years of teaching experience with majority holding Masters and PhDs
- Special Education and ELL certified with support in 30+ unique languages
- Person-Centered Matching: students and tutors are mindfully and intentionally matched together
- All tutors have personalities that shine through the web to boost attendance rates
- Content area experts that know how to make lessons come alive online across K-12

---

Air Tutors is proudly supported by The Bill & Melinda Gates Foundation and higher education institutions to accelerate K-12 learning.

We are also partnered with Mathematica, a public policy research firm, to evaluate our tutoring programs.

---

2022 RANDOMIZED CONTROLLED TRIAL (RCT) OVERALL SUMMARY:

In a 14-week implementation timeline, 30% more students were brought up to grade level compared to their peers.

- 800-211-1986
We are educational strategists with our partners, providing full implementation support, accountability metrics, and a tailored alignment to your curriculum and programs.

**SCHOOL - BASED IMPLEMENTATION**
- After tailoring sessions to fit your bell schedule during school hours or fitting in a program for after school at school times, our tutors meet with students regularly.
- Supervised by on-site staff.

**HOME - BASED IMPLEMENTATION**
- After an initial outreach by the school, Air Tutors handles 100% of recruitment for at-home students through a series of communications home by text, email, and direct phone call.
- Students register online, selecting their school, grade, teacher, subject, and availability. Students are able to schedule their own tutoring sessions on an as needed basis or sustained regular schedule.

**3. PROGRAM LAUNCH**
- Personalized learning sessions are delivered on our interactive platform
- Small groups of 1:1 to 1:5 based on student need
- Highly qualified tutor offers sustained and consistent support
- Lessons aligned to district chosen curriculum
- Ongoing accountability reports sent to district weekly (attendance data, progress, performance data, etc)

**1. SEND QUOTE AND CONTRACT**
A custom quote is crafted to reflect district goals and schedule.
After quote is accepted, a contract for services is sent to the district for board approval (if necessary) to begin with implementation

**2. PREPARE FOR LAUNCH**
Implementation team meets with District to confirm rollout procedure, answer questions, talk through logistics, and introduce one another in a fun filled meeting to boost energy and program efficacy
Air Tutors works with district leaders to identify target student population and gather academic histories to effectively group students together
With a less than 5% tutor acceptance rate and a community with an average of 10 years of teaching experience, we are confident that we provide only the best tutors in the business.

**WHAT SETS AIR TUTORS APART?**

- Our highly educated and engaging mentors are carefully selected based on their knowledge and expertise – as well as personality and passion for working with students – and the ability to translate that through digital learning formats.

- Mentors come from distinguished academic backgrounds, with the majority earning master’s or doctorate degrees, making them excellent resources as students navigate their academic journeys.

- Each tutor is equipped with digital pedagogy experience and ongoing training to best utilize advanced technology and unique strategies suited to the digital classroom.

- Our tutor community is as unique and diverse as the students we serve. We recognize the importance of diversity and cultural humility in the education setting and the need for teachers with a multitude of backgrounds and languages to reach students. As such, we have sought out highly skilled educators of diverse backgrounds and linguistic capabilities.

**CURRENT LANGUAGES SUPPORTED:**

Arabic, Barawa, Cambodian, Dari, Farsi, French, German, Greek, Haitian Creole, Hebrew, Hindi, Hungarian, Ilocano, Indonesian, Italian, Japanese, Latin, Mandarin/Cantonese, Pashto, Polish, Portuguese, Romanian, Russian, Sign Language, Sindhi, Somali, Spanish, Tamil, Urdu.

All tutors are fingerprinted, and background checked through CDOJ/FBI.
