

# Hawai'i Tutoring

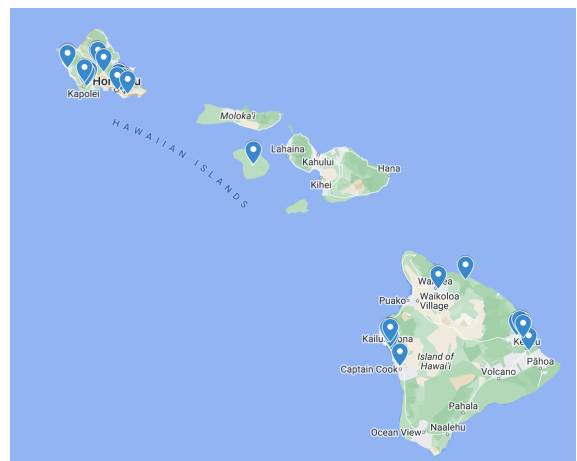

The Hawai'i Tutoring Program team has committed to providing K-12 students across Hawai'i with access to high-quality learning acceleration. We successfully held spring and summer cohorts that supported nearly 60 students, including many Native Hawaiian and low-income kids, from a wide range of communities and islands. Thanks to the generosity of Spectrum, Nakupuna Foundation, and Kamehameha Schools, every family received high-quality tutoring completely free of charge, a value of \$90 per hour.

The spring and summer programs offered K-12 math and reading/literacy tutoring. To increase the opportunity for student groups by scheduling math sessions and literacy sessions on specific days during specific times on those days. Students from different communities were grouped based on grade level, academic area of need, and availability. This approach helped students engage in learning and foster community in their sessions.

## Attendance & Participation:

259 Attended summer sessions; 8 no-show sessions

- 97% Class run rate
- 72% Individual attendance rate

## Testimonials:

*“My first session went great. I learned what rotations, reflections, and translations are. She is a great teacher and can articulate her knowledge thoroughly in a way that I can understand.”*

*A.S., Student*

*“Luke loved his first tutoring session and enjoyed the game at the end! I am so very grateful for this tutoring opportunity. My daughter is so excited to get on her first lesson tomorrow. He felt comfortable with the exercises and was also very challenged. Ms. Machado had a great temperament and Luke took the feedback very well. Thank you again!!”*

*U.T., Parent*

*“Even though it was Timothy's first class with the new teacher, he really liked it. He told me that next time he gets tutored, he wants to have class again with this teacher. The new teacher had a good pace which helped. Timothy followed through the class and answered all of his questions. I personally think Sara Laanien was a great match for Timothy. He really enjoyed the session with her. Thank you.”*

*E.Y.K., Parent*

*“Before my son started the Hawai'i Tutoring program he did not like to read because he wasn't confident in himself. After a couple of sessions I started to see that he was gaining confidence and would excitedly ask to read. His tutor Elizabeth is really nice and would make lessons for him to do that made reading fun. I would really recommend this program to all families who have children needing tutoring.”*

*M.L.Y., Parent*

*“Air Tutors is a wonderful program & as parents, we felt Brittney was excellent! Our daughter benefited immensely from this program. Brittney was extremely organized, well prepared, & structured her lessons appropriately for the age of the students. She connected well with all of the students & kept the children engaged in the online class. Our daughter learned what nouns & verbs are, reading skills, & how to be an online student. All wins! Thank you for this opportunity!!”*

*K.L., Parent*

*“Hawai'i Tutoring Program was a great experience for my kids. The tutors helped them in 9th grade English and Math. It was a great refresher and good way to keep them engaged for an hour a day.”*

*H.T., Parent*
